

## **Gaming like a king – With the new Wireless Gaming Mouse IMPERIOR from Speedlink, every move is a success**

**A powerful and optical highlight on every gaming table**

**Heeslingen/Germany, January 24, 2022** – With the new wireless IMPERIOR Gaming Mouse from Speedlink, gamers are prepared for any gaming situation. Seven traditional and one four-way button ensure that all important commands are always available.

### **Own software for individual settings**

For gamers with high demands on performance and individuality, the IMPERIOR Gaming Mouse is the ideal tool. With a sensor resolution of interpolated up to 10,000 dpi and a polling rate of 1,000 Hz, it is extremely powerful. Thanks to the seven traditional and one four-way button, every command can be executed at the drop of a hat. In addition, the four-way key can also be used as a directional pad and is thus especially advantageous for first-person shooters. A dedicated software ensures that both the key layout and sensor resolution as well as the mouse's multi-coloured illumination can be set according to one's own preferences. These settings are saved on the internal memory as one of five profiles. To quickly adjust the illumination during gameplay as well, the illumination modes and sensor resolutions can be changed via separate switches.

### **Up to ten meters range and intelligent power saving mode**

The wireless mouse has a range of up to ten meters and a practical on/off switch as well as an intelligent power-saving mode. This ensures optimal use of the integrated

lithium battery. In addition, the mouse offers a high degree of flexibility in wireless mode thanks to its long receiver range. When used wired, it is not only charged via the supplied USB cable, but data can also be transferred conveniently.

### **Availability**

The [IMPERIOR Gaming Mouse - wireless](#) is now available for 49.99 € (RRP).
