

**For more hygiene at work:**

**Speedlink presents new antibacterial HI-GENIC products**

**Health benefits with the antibacterial keyboard and antiviral mouse pad**

**Heeslingen/Germany, 25 May 2022** – Hygienic equipment to be used in the office or at home – that's what Speedlink delivers with the new antibacterial HI-GENIC keyboard and the antiviral HI-GENIC mousepad. The manufacturer from Heeslingen also presents the new AXON Desktop Mouse, which ensures relaxed and fatigue-free work on PC or notebook.

**Clean work with ease**

HI-GENIC products set new standards in hygiene. Bacteria are constantly accumulating on work equipment, and the HI-GENIC mouse and keyboard

actively counteract this. The surface of the keyboard has been manufactured with modern silver ion technology, which eliminates 99 percent of all *Staphylococcus aureus* and *E. coli* bacteria in less than 24 hours. Not only does the keyboard offer health benefits, but it also impresses with its excellent typing feel and ease of use. The flat key profile makes it particularly tactile and enables fast, precise keystrokes. In addition, twelve multi-function keys facilitate common input commands, which helps to increase your own efficiency.

The HI-GENIC mouse pad reduces up to 99 percent of all SARS-CoV-2, H3N2 and H5N1 viruses on its surface within two hours thanks to Polygiene's ViralOff® coating. The soft textile surface makes the mouse pad comfortable to use and suitable for all mouse sensors.

### **Relaxed and fatigue-free work**

The AXON Desktop Mouse ensures relaxed and fatigue-free work on PC or notebook. The full-size housing gives the hand a comfortable grip and guarantees a pleasant feel - even when working for longer periods of time. The mouse has delay-free wireless technology that guarantees wireless freedom of movement up to eight metres. Its robust construction and precise technology make the AXON a reliable mouse for the workplace.
