ZAVOS RGB Gaming Mouse, rubber-black

Versatility, precision and style are the main features of this ZAVOS RGB Gaming Mouse. The clear design facilitates efficient as well as intuitive handling, all complemented by rainbow RGB lighting. Thanks to the five buttons and two dpi switches, this mouse is versatile and especially suited to fast action. The maximum sensor resolution of 3,200 dpi (or 8,000 dpi interpolated) guarantees absolute precision and delicacy so you can lock in on even the smallest targets. Thanks to the rubberised surface of the ZAVOS, perfect hold is guaranteed at all times, even during sweat-inducing missions. The 1.5 metre long coated cable is robust and elegant while it provides plenty of freedom of movement for all manoeuvres. Adjusting the RGB LEDs as desired, defining macros, saving button assignments and different profiles is possible thanks to the software. A real gamechanger!
