TWINDOCK Charger for PS5, black

TWINDOCK Charger: The elegant black charging station enables simultaneous and rapid charging of two PS5® controllers in just three hours. Modern charging technology protects the equipment from overload or overheating, while LED indicators on the controllers reflect the charging status. The TWINDOCK can easily be connected to the USB-A port of a console or another USB-A power source. Compatible with both DualSense® and DualSense Edge™ controllers, the charger is an ideal addition to any gaming setup. Ready for the next action!
