AUDIS Streaming Microphone, black

Do you enjoy sharing content via video, podcasts or live streams? The the AUDIS Desktop Streaming Microphone - compatible with PC/PS5/PS4 - is perfect for you. With a combination of compact condenser microphone and sound-compensating accessories, you can produce crystal-clear recordings with ease. The shock-absorbing tripod can simply be located as needed and guarantees that your microphone is positioned perfectly. Thanks to plug & play, you will be ready to go any time, anywhere. In addition to the precise, omnidirectional microphone, the practical pop filter ensures perfect results by effectively blocking disruptive noises such as breathing and plosives (P, K, B etc.). Your followers will value the exceptional audio quality of your production.
