VELORA Rechargeable Mouse - Wireless, Bluetooth, Smart Flying Scroll Wheel, white

The rechargeable, wireless VELORA mouse with five buttons, DPI switch and mode switch combines state-of-the-art technology and ease of use for an unparalleled user experience. A precise optical sensor with blue LED enables accurate work even on smooth and light surfaces. The adjustable resolution of 1,000, 1,600, 2,400, 3,200 and 4,800 dpi ensures optimum control in any application. Thanks to three flexible connection options – 2.4 GHz (USB-A receiver with USB-C adapter) as well as Bluetooth with two separate profiles – the mouse can be seamlessly connected to various devices such as laptops or tablets and is ready for use at any time. The dampened main buttons allow virtually silent yet precise clicks. This is complemented by an intelligent, free-running scroll wheel with tilt function that allows a quick switch between precise and ultra-fast scrolling. This makes navigation through documents and websites effortless and efficient. The VELORA is rechargeable and eliminates the need for disposable batteries. The mouse can still be used without any problems while charging. The overall package is rounded off by an ergonomic shape that ensures a comfortable and relaxed hand position even during prolonged use.
