CONUX RGB Stereo Gaming Headset - for PC/PS5/PS4/ Xbox SeriesX/S/Switch/OLED/Lite , black

The CONUX RGB stereo gaming headset has powerful 50mm driver units and reproduces all aspects of the game with crystal-clear precision, from deep bass to high treble. The multi-coloured RGB illumination creates an atmospheric ambience. Comfort is paramount, with ultra-soft padding and a robust metal frame for long-lasting comfort and durability. The variable size adjustment and the detachable, sensitive microphone with flexible arm enable perfect adaptation to any situation in the game. The integrated cable remote control provides quick access to volume control and microphone mute. At the same time, the 3.5 mm jack plug and the supplied adapter offer universal compatibility with all common gaming platforms, from PC to PS5, PS4, Xbox and Switch, making the CONUX RGB stereo gaming headset a versatile companion.
