

## **Extremely lightweight and powerful – The new Speedlink SKELL Lightweight Gaming Mouse offers an even faster gaming experience**

**With a polling rate of 1,000Hz always one step ahead of the opponents**

**Heeslingen/Germany, 15.10.2021** –The new SKELL Lightweight Gaming Mouse by Speedlink ensures even more action in the next gaming session. It's not only a real visual highlight – due to its low weight, it enables fast response times and thus offers enormous advantages for hours of gaming pleasure.

### **Exceptional design paired with optimal handling**

The individual design and the six lighting modes make the SKELL an eye-catcher in every gaming setup. A separate switch allows to adjust the lighting according to the user's preferences and to fit the situation. No matter how long the session lasts, the five buttons and rubberized mouse wheel ensure always having all the options at the fingertips. Plus, with an adjustable resolution of up to 4,200dpi, absolute precision is provided even in the most sensitive situations. The stylish SKELL Lightweight delivers an optimal gaming experience with a weight of only 73 grams as well as a polling rate of 1,000Hz – with it, users have everything under control even in the most hectic and tense moments.
