

SL-810008-BK

TOKEN RGB Gaming Stereo Speaker, black

Gaming sound in its full glory - the Speedlink TOKEN RGB Gaming Stereo Speaker presents an impressive combination of powerful audio and atmospheric RGB lighting, elevating the gaming experience to a new level. The six different lighting modes, including reactive music lighting, allow for a personalized customization of the gaming environment based on individual preferences.

Thanks to the Bluetooth® connection, smartphones, tablets, or other devices can be effortlessly paired. The integrated cable remote control provides convenient volume control and a practical On/Off switch, also to select the connection via the jack plug or Bluetooth®. The generous cable length of 1.2 meters, along with an additional 1.2 meters between the satellites, provides ample flexibility for optimal positioning in your setup.
