

SL-680020-BK

**SKELL Lightweight Gaming Mouse, black**

The SKELL Lightweight Gaming Mouse is not only optically extraordinary but also impresses thanks to its performance. Weighing just 73 grams, this lightweight mouse allows ultra-fast movements. Paired with a polling rate of 1,000Hz, this makes for a mouse that is always a step ahead of the competition. Sensor resolution can also be adjusted via a dpi switch. Even in the most sensitive of situations, the required precision is always guaranteed with a maximum resolution of 4,200dpi. Thanks to the five buttons and a rubberised mouse wheel, all the options are within reach. What's more, the six lighting modes can be changed and adapted to suit the mood using an integrated button.
