HI-GENIC Antibacterial Keyboard, black - US-Layout

Whether you are at home or at the office, bacteria is constantly accumulating on keyboards. The HI-GENIC Antibacterial Keyboard actively counteracts this and sets new standards in terms of hygiene. The surface of the keyboard has been manufactured with modern silver ion technology and eliminates 99 percent of all Staphylococcus aureus and E. coli bacteria in less than 24 hours. In addition to the health benefits, the practical keyboard also impresses with its excellent typing experience and ease of use. The flat key profile has a particularly pleasant feel that allows for quick and precise keystrokes. In addition, 12 multi-function keys facilitate common input commands, which helps to increase your efficiency. The HI-GENIC Antibacterial Keyboard stands for clean work with ease.
