

SL-660009-BK

REGYS RGB Gaming Chair, black fabric

The REGYS RGB Gaming Chair is a throne for your royal gaming skills. The height-adjustable chair with inclinable seat and backrest can easily be brought into the desired position to ensure you're always comfortable when gaming. Two soft, removable cushions as well as the adjustable armrests help you feel completely comfortable. The sitting experience is rounded off by high-quality and resistant materials. Both the fabric cover and the upholstery foam ensure a comfortable feeling for your body at different temperatures. RGB lighting can be selected via a remote control depending on your mood so the chair visually brings your gaming room to life. 300 lighting modes ensure that the atmosphere matches your games. Just connect the chair to your power bank, put it in the storage compartment provided and let the gaming begin.
