REGYS RGB Gaming Chair, black fabric

The REGYS RGB Gaming Chair is the ultimate seat for passionate gamers who appreciate royal comfort and an atmospheric ambience. Optimally equipped with a height-adjustable seat and reclining backrest, this chair allows ideal adaptation to individual needs. Two soft, removable cushions and easily adjustable armrests offer all-round comfort for every gaming session. Equipped with a fabric cover and high-quality upholstery foam, the seat always feels comfortable, even during long sessions and in different temperatures. The highlight of the REGYS RGB gaming chair is the integrated RGB lighting, which can be controlled using a remote control. With 300 different lighting modes, the lighting can be perfectly matched to the ambience of the gaming room or the mood of the games. Simply supply the chair with energy via a power bank, place it in the storage compartment provided and the gaming adventure can be experienced in all its glory. This makes the REGYS RGB Gaming Chair not only a functional, but also a visually captivating addition to any gamer's equipment.
