DECUS NX RGB Gaming Mouse, white

Gaming at the highest level with the Speedlink DECUS NX RGB Gaming Mouse. This powerful mouse with stylish lighting offers everything needed for precise and responsive gaming. With 6 buttons (including a rapid-fire button) and 2 dpi switches that allow lightning-fast adjustment of sensor resolution (configurable from 200 to 12,800dpi in 6 steps), every situation is under control. The multicolor and configurable RGB lighting sets individual accents. The lighting can be configured via software or switched to different modes using a button on the underside. The ergonomic shape of the mouse ensures optimal hand positioning and prevents quick fatigue during intense battles. With an adjustable polling rate of up to 1000Hz and a maximum sensor acceleration of 20g, maximum performance is offered. A tracking speed of up to 60ips ensures precision. The configuration software allows the definition of macros, adjustment of button assignments, and saving of various profiles. The fabric-covered cable with a length of 1.8 meters offers flexibility and durability.
