

# QUICK INSTALL GUIDE

## SCELUS – GAMING MOUSE

### BUTTONS

Assign new functions to the mouse buttons using the respective dropdown menu. The colour of the mouse wheel is allocated by the related profile. Each of the five profiles can be assigned its own colour, whereas the illumination of the LED indicator remains blue.

### SENSOR

Set the dpi resolution of each default setting and the Windows\* mouse settings. It's also possible to set the resolution of the X and the Y axis independently of one another.

### MACRO EDITOR

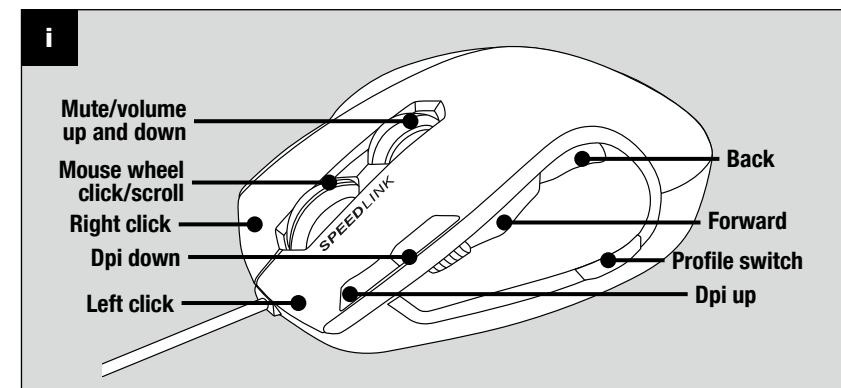

With the exception of the profile switch button, all buttons are macro-compatible and can be assigned macros as well as additional key commands such as mouse and keyboard functions and advanced functions, whereas the key cycle tab allows you to assign frequently used commands to the second mouse wheel and to customise them.

### SETTINGS

Customize general settings and back up, restore, or reset the driver settings. All changes made are saved immediately.

### CONFIGURATOR APP FOR TABLETS AND SMARTPHONES

To activate the SPEEDLINK Mouse Configurator, please download the app (Android\* 4.0 or later/iOS\* 7 or later required), install it on your device and enter the App-Code provided in the Settings tab. For more information please visit [www.speedlink.com](http://www.speedlink.com)

## EL

1. Εισάγετε το καλώδιο σε μια ελεύθερη υποδοχή USB του υπολογιστή σας. Το ποντίκι αναγνωρίζεται αυτόματα και μετά από λίγο είναι έτοιμο για χρήση.
2. Κατεβάστε τον οδηγό για να εγκαταστήσετε το λογισμικό για το SCELUS Gaming Mouse. Παρακαλούμε χρησιμοποιείτε πάντα την τρέχουσα έκδοση του οδηγού, η οποία διατίθεται online προς μεταφόρτωση στη διεύθυνση [www.speedlink.com/support](http://www.speedlink.com/support). Σε αυτή τη διεύθυνση διαδίκτυου θα βρείτε επίσης λεπτομερείς πληροφορίες σχετικά με τη χρήση του οδηγού με το SCELUS Gaming Mouse.
3. Για μια λεπτομερή ρύθμιση ανοίξετε το μενού οδηγού κάνοντας διπλό κλικ στο σύμβολο SPEEDLINK δεξιά κάτω στη γραμμή εργασιών των Windows\*. Μέσω του μενού μπορείτε να διεξάγετε εκτενείς ρυθμίσεις.

## CZ

1. Zapojte kabel do volného USB portu na počítači. Systém myš automaticky detekuje, a krátce poté bude připravena k použití.
2. Stáhněte si řídicí program pro instalaci software pro SCELUS Gaming Mouse. Prosim, použijte vždy nejaktuálnější verzi budicího programu, který je k dispozici online na webových stránkách [www.speedlink.com/support](http://www.speedlink.com/support). Na této internetové adrese také najdete podrobné informace o používání budicího programu s vaší SCELUS Gaming Mouse.
3. Podrobnou nabídku umozňující konfigurovat ovladače otevřete tak, že dvakrát kliknete na ikonu SPEEDLINK v pravé části hlavního panelu systému Windows\*. V nabídce můžete provadět rozsáhlá nastavení.

## PT

1. Ligue o cabo na porta USB do seu computador. O rato é detetado automaticamente e de seguida está pronto para utilizar.
2. Descarregue o controlador para instalar o software do rato SCELUS Gaming Mouse. Utilize sempre a última versão do controlador que está disponível para descarregar no website [www.speedlink.com/support](http://www.speedlink.com/support). Neste mesmo endereço de Internet poderá encontrar informações pormenorizadas sobre a utilização do controlador para o seu rato SCELUS Gaming Mouse.
3. Para obter uma configuração pormenorizada abra o menu do controlador com clique duplo sobre o símbolo SPEEDLINK no lado inferior à direita da barra de tarefas do Windows\*. Neste menu poderá realizar numerosos ajustes de configurações.

## DK

1. Sæt kablet i en ledig USB-tilslutning på din PC. Musen registreres automatisk og er så klar til brug.
2. Download driveren for at installere softwaren til SCELUS Gaming Mouse. Anvend altid den seneste version af driveren, som kan downloades online på [www.speedlink.com/support](http://www.speedlink.com/support). På denne internet-adresse finder du desuden udførlige oplysninger om hvordan du anvender driveren med dit SCELUS Gaming Mouse.
3. Åbn drivermenuen for en detaljeret konfiguration via et dobbeltklik på SPEEDLINK-symbolet, need til højre i Windows\*-opgavelinjen. Via menuen kan du foretage omfattende indstillinger.

## SE

### CONFIGURATOR APP FOR TABLETS AND SMARTPHONES

To activate the SPEEDLINK Mouse Configurator, please download the app (Android\* 4.0 or later/iOS\* 7 or later required), install it on your device and enter the App-Code provided in the Settings tab. For more information please visit [www.speedlink.com](http://www.speedlink.com)

## EN

1. Plug the cable into any free USB port on your computer. The mouse will be detected automatically and ready to use shortly after that.
2. To install the software for the SCELUS Gaming Mouse please download the corresponding driver. Always use the latest driver version. To download it, visit: [www.speedlink.com/support](http://www.speedlink.com/support). You will also find detailed information there on how to use the driver with your SCELUS Gaming Mouse.
3. To fully customise your mouse, open the driver menu by double-clicking the SPEEDLINK symbol on the bottom right in the Windows\* taskbar. The menu lets you make extensive configuration changes.

## DE

1. Stecken Sie das Kabel an einen freien USB-Anschluss Ihres Rechners. Die Maus wird automatisch erkannt und ist kurz darauf einsatzbereit.
2. Laden Sie den Treiber herunter, um die Software für die SCELUS Gaming Mouse zu installieren. Bitte verwenden Sie stets die aktuelle Version des Treibers, der online unter [www.speedlink.com/support](http://www.speedlink.com/support) zum Download zur Verfügung steht. Unter dieser Internet-Adresse finden Sie ebenfalls ausführliche Informationen zur Verwendung des Treibers mit Ihrer SCELUS Gaming Mouse.
3. Öffnen Sie für eine detaillierte Konfiguration das Treiber-Menü durch einen Doppelklick auf das SPEEDLINK-Symbol rechts unten in der Windows\*-Taskleiste. Über das Menü können Sie umfangreiche Einstellungen vornehmen.

## IT

1. Inserire il cavo in una porta USB libera del computer. Il mouse viene riconosciuto automaticamente e poco dopo è pronto per l'uso.
2. Scaricare il driver per installare il software della SCELUS Gaming Mouse. Utilizzare sempre una versione aggiornata del driver, disponibile per il download dal sito [www.speedlink.com/support](http://www.speedlink.com/support). Al medesimo indirizzo internet sono disponibili anche informazioni dettagliate per l'uso del driver con la SCELUS Gaming Mouse.
3. Per una configurazione dettagliata fare doppio clic sul simbolo SPEEDLINK in basso a destra nella barra delle applicazioni Windows\*. Con il menu si possono configurare numerose impostazioni.

## FR

1. Raccordez le câble à une prise USB libre sur votre ordinateur. La souris est automatiquement reconnue et utilisable quasi immédiatement.
2. Téléchargez le pilote pour installer le logiciel de la SCELUS Gaming Mouse. Veuillez toujours utiliser la version actuelle du pilote disponible en téléchargement à l'adresse [www.speedlink.com/support](http://www.speedlink.com/support). Vous trouverez également à cette adresse des informations détaillées sur l'utilisation du pilote avec votre SCELUS Gaming Mouse.
3. Double-cliquez sur le symbole SPEEDLINK en bas à droite dans la barre des tâches Windows\* pour ouvrir le menu du pilote et configurer en détail la souris. Vous pouvez procéder dans le menu à de nombreux réglages.

## ES

1. Enchufa el cable a un puerto USB libre de tu ordenador. El ratón se instala automáticamente y puedes utilizarlo en el momento.
2. Descarga el controlador para poder instalar el software para el SCELUS Gaming Mouse. Utiliza siempre la última versión de controlador la cual puedes descargarla de la página web [www.speedlink.com/support](http://www.speedlink.com/support). En esta página web también encontrarás información detallada sobre la utilización del controlador con el SCELUS Gaming Mouse.
3. Para conseguir la configuración más detallada abre el menú del controlador, haciendo doble clic en el icono SPEEDLINK, abajo, a la derecha en la barra de tareas de Windows\*.

## RU

1. Вставьте кабель в свободный USB-порт компьютера. Мышка автоматически распознается и поле этого немедленно готова к работе.
2. Загрузите драйвер, чтобы установить ПО для SCELUS Gaming Mouse. Всегда пользуйтесь самой свежей версией драйвера, которую можно загрузить с сайта [www.speedlink.com/support](http://www.speedlink.com/support). По этому адресу можно ознакомиться с подробной информацией по использованию драйвера с SCELUS Gaming Mouse.
3. Для детального конфигурирования откройте меню драйверов, для этого щелкните двойным щелчком символ SPEEDLINK справа внизу на панели задач Windows\*.

## NL

1. Sluit de kabel aan op een vrije USB-poort van uw computer. De muis wordt automatisch herkend en is meteen gereed voor gebruik.
2. Download het stuurprogramma om de software voor het SCELUS Gaming Mouse te installeren. Gebruik altijd de nieuwste versie van het stuurprogramma, die u van [www.speedlink.com/support](http://www.speedlink.com/support) kunt downloaden. Op dit internetadres vindt u ook uitgebreide informatie over het gebruik van het stuurprogramma met uw SCELUS Gaming Mouse.
3. Dubbelklik op het pictogram SPEEDLINK rechts onder op de Taakbalk van Windows\* om het menu van het stuurprogramma te openen en gedetailleerde configuratie-instellingen op te geven. In het menu staan opties voor een groot aantal instellingen.

## PL

1. Podłącz przewód USB do wolnego złącza USB komputera. Mysz zostanie automatycznie zainstalowana i za chwilę będzie gotowa do pracy.
2. Pobierz sterowniki, by zainstalować oprogramowanie do SCELUS Gaming Mouse. Zawsze korzystaj z aktualnej wersji sterowników, które są dostępne do pobrania na stronie [www.speedlink.com/support](http://www.speedlink.com/support). Pod tym adresem internetowym można także znaleźć wyczerpujące informacje na temat stosowania sterowników w SCELUS Gaming Mouse.
3. Otwórz menu szczegółów konfiguracji sterownika podwójnym kliknięciem symbolu SPEEDLINK u dołu po prawej stronie ekranu, na pasku zadań Windows\*. Za pomocą tego menu można wykonać wiele ustawień.

## TR

1. Kabloyu bilgisayarınızın boş bir USB girişine takın. Fare otomatik olarak tanınır ve kısa süre sonra kullanıma hazır duruma gelir.
2. SCELUS Gaming Mouse için yazılımı kurmak için sürüyücü indirin. Lütfen her zaman [www.speedlink.com/support](http://www.speedlink.com/support) adresinde online olarak mevcut olan en güncel sürücü versiyonunu kullanın. Bu internet adresinde de ayrıca SCELUS Gaming Mouse ile sürücünün kullanımı hakkında detaylı bilgi bulabilirsiniz.
3. Ayrıntılı yapılandırma yapmak için sağ altta buluna Windows\* görev çubuğundaki SPEEDLINK sembolüne çift tıklayarak sürücü menüsünü açın. Menü üzerinde kapsamlı ayarlamalar yapabilirsiniz.

## HU

1. Dugja be a kábel számítógépe szabad USB portjába. A gép egyből felismeri az egeret és nemsokára használható.
2. Az SCELUS Gaming Mouse billentyűzet telepítéséhez töltse le a meghajtót. Használja a telepítő program aktuális változatát, mely az interneten a [www.speedlink.com/support](http://www.speedlink.com/support) oldalon tölthető le. Ezen az internetcímen részletes információkat találhat arra vonatkozóan, hogy a meghajtót hogy használhatja a SCELUS Gaming Mouse.
3. A részletes konfigurációhoz a SPEEDLINK szimbólumra duplán kattintva nyissa meg a meghajtó menüjét a jobb alsó sarokban található Windows\* menüélen. A menün keresztül számos beállítást tehet meg.

# GET TO KNOW IT:

## IOVIA Gaming Keyboard

Time for a change! Transform your keyboard and swap the standard black keycaps on your IOVIA Gaming Keyboard in a flash – for fire-red gaming keys. They make those critical WASD and arrow keys really stand out, plus guide you so you always hit the right key when things get tense in the heat of battle. Its radical looks – especially the red backlit features – and its user-friendly design make the IOVIA Gaming Keyboard the perfect keyboard both for advanced and newbie gamers.
