

SL-800010-BK

VOLITY READY Streaming Starter Set

The VOLITY READY Streaming Starter Set equips you with everything you need right out of the box to set out for new online worlds and share your experiences. The professional microphone and accessories give you all the tools for you to share entertaining commentaries on games, esports competitions and other exciting streams – all in the highest quality. The height-adjustable, flexible swivel-mount microphone arm or the desktop tripod let you position your mic exactly where you need it. And thanks to its wind shield and pop filter you can transmit your voice cleanly and clearly all while the shock mount holds the microphone securely in place on the arm. On top of all this, the generous length of both accompanying cables lets you broadcast from anywhere you want. Simply unbox, assemble and connect directly with the community.
