Small product, big impact: Speedlink ensures more privacy with the SPY GUARD Webcam Sticker

Weertzen, 14th May 2018: Increased privacy when playing and working on the web – the electronics specialist Speedlink’s webcam stickers allow you to use your computer or laptop without the feeling of being watched.

“Data protection and privacy while surfing the internet are a major issue in today’s networked world. That’s why we have developed SPY GUARD, a small yet powerful product that protects laptop and webcam users,” explains Peter Heller, Product Manager at Speedlink. “In contrast to the otherwise often used adhesive strips or other stickers, our stickers completely obscure the webcam and can be removed and reused without leaving any residue.”

SPY GUARD webcam stickers are available in a six-pack in either subtle black or trendy camouflage for just €4.99.
