Speedlink launches three cool new speakers with stunning looks to match their stunning sound

Weertzen, 11 November 2019 – The electronics specialist Speedlink is expanding its extensive sound-system lineup with three new stereo speakers: the DAROC, BADOUR and LAVEL.

Now the sound is set to stun with killer looks too with these three new stereo speaker systems that ooze cool.

“Stunning sound has always been essential, no more so than on the PC. And it’s even better if the speakers complement the setup and match the other components. This is where personal taste plays a critical role, so it’s important to us to offer a variety of models that all meet the same high technical standards, but which can cater for different design preferences,” explained Peter Heller, Product Manager at Speedlink.

DAROC Stereo Speaker

The DAROC Stereo Speaker set is compact, dynamic and above all incredibly practical. The speakers are USB powered, so they’re not tethered to a power outlet and are the perfect fit for any desktop. And once in position, they’ll not only stun with their sound, but also with their design – with two colour options to choose from: sleek black or a cool blue camo pattern. Plus, what’s really smart is that users won’t have to go through the hassle of unplugging the speakers to make video calls thanks to the two jacks on the front for a set of headphones or a headset.

BADOUR Stereo Speaker

Want something even more eye-catching? The BADOUR Stereo Speaker set will mesmerise with its stunning multi-colour LED lighting,

which adds an awesome dash of colour as a contrast to the speakers' sleek black casings. Beneath the LED bar is a handy knob for convenient volume adjustment, just like on the DAROC. The speakers also boast metal grilles, which protect the speaker membranes from damage and enhance the speaker set's cool look.

LAVEL Stereo Speaker

Colourful lighting, fantastic sound and maximum convenience – the LAVEL Stereo Speaker set has it all. The multi-colour LED lighting surrounding each large driver will bathe the desktop in an atmospheric glow, with a colour that cycles continuously or which can be deactivated for a more purist look. The speakers offer a host of connection options with jack plug connectivity and Bluetooth for wireless playback via devices such as a smartphone, plus a jack on the front to hook up a set of headphones. The speakers also feature an easy-access front control panel for quick and convenient lighting-mode, volume-level and track-selection control – for when users don't just want to watch the stunning light show.

DAROC Stereo Speaker, black/blue camouflage

- Article number: SL-810005-BK/BE
- USB-powered stereo speakers
- 2 × 3.5mm jack plugs for audio-output device connectivity
- Combined volume control and on/off knob
- Front headphone and mic jack
- Red operating status LED indicator
- Soft foam feet for non-slip grip
- Output power (RMS): 6W, 12W peak power
- Drivers: 2 × 2.5" (6.35cm)
