## **Speedlink's gamescom & IFA highlights take the sitting, hearing and gaming experience to the next level**

**Weertzen, 16 August 2019 – Building on its tradition for delivering innovative products, gaming specialist Speedlink presents its latest highlights right on time for gamescom and IFA. It includes XL gaming chairs, headsets in every price bracket, keyboards and mice with RGB lighting – and a whole lot more.**

Speedlink truly has been burning the midnight oil. The weeks running up to gamescom and IFA set pulses racing faster every year – and things are no different for the Speedlink team. They've been working overtime to put the latest products through their paces ready for showcasing in all their glory in Cologne and Berlin. And this year, there really is something that will appeal to every gamer out there – including the really big kids.

### **TAGOS XL Gaming Chair**

The new TAGOS XL Gaming Chair with its extra-large seat and backrest will boost every gamer's comfort level. They'll be able to fine-tune it for the perfect sitting position thanks to its infinitely adjustable seat height and multitude of backrest and armrest adjustment options. And with its high-grade PU leather and incredibly comfortable backrest, armrest and seat padding, users will feel like they're floating on cloud nine even after hours spent sitting in the gaming hot seat. And it doesn't stop there, as Speedlink's added two further gaming chairs to its lineup.

### **New headsets: HADOW, CELSOR, DRAZE and ORIOS RGB 7.1**

Once a comfortable, healthy sitting position's been sorted, it's time to sort out the next essential: a matching premium headset. With four new

Press release  
– For immediate release –

models on offer, the HADOW, CELSOR, DRAZE and ORIOS RGB 7.1 bolster Speedlink's lineup and will blow users away with their sumptuous stereo sound. Each headset is fully adjustable for the perfect fit, and thanks to their soft earpads these headsets can be worn hour after hour without the annoying feeling that they're putting pressure on the head. The HADOW, CELSOR and DRAZE also feature a practical inline remote for on-the-fly volume control and microphone muting – all without needing to leave the gaming action. And when it comes to the RGB illuminated ORION RGB 7.1 with its ability to light up in over 16.7 million colours, this top-of-the-line headset boasts earcup control of the volume level and microphone muting.

### **IZERIS Semi-mechanical Gaming-Keyboard**

Need a new keyboard? With the great haptic feedback of mechanical keys? But at an affordable price? As usual, Speedlink has a smart choice in its lineup: the IZERIS Semi-mechanical Gaming Keyboard. At €59.99, this gaming keyboard boasts semi-mechanical keys for haptic feedback and a great-feeling, accurate and quiet keystroke. And with its RGB lighting and 12 modes to choose from, it'll banish dullness from the desktop and spice it up with a kaleidoscope of effects so the lighting mood always matches the on-screen action. Splash protection and the sturdy metal frame guarantee longevity and durability, even when the keyboard is regularly chucked into a rucksack and taken to a LAN party or esports tournament.

On top of that, it comes kitted out with 12 multifunction keys for rapid access to mission-critical functions. And if that wasn't enough, the IZERIS boasts anti-ghosting technology with 26-key rollover.

### **SOVOS Vertical RGB Gaming Mouse**

The next essential is a pro-level mouse for a killer gaming experience. The SOVOS Vertical RGB Gaming Mouse has an awesome wrist-friendly, ultra-ergonomic vertical design – and it's got killer looks too with ten stunning light effects and 16.7 million colours to choose from. The powerful software makes it a breeze to customise the light effects as well as the functions of the buttons and the innovative integrated mini joystick. The stick, in combination with the mouse's seven buttons, offer total game control while the dpi switch allows on-the-fly toggling between five dpi levels ranging from 500 to 10,000dpi (interpolated).

### **GRAVITY CARBON RGB 2.1 Subwoofer System**

Hear. Feel. And see. When the GRAVITY CARBON RGB system sends the sound of explosions and gunshots ripping through the room, it also makes it look like the gaming room's quaking to its core – all thanks to the system's spectacular RGB lighting. With 16.7 million colours and 6 different lighting modes to choose from, music and gaming sounds are accentuated with awesome results. And when it comes to selecting them, all that takes is a press of a single button on the subwoofer. For maximum convenience and zero distraction from the on-screen action, the volume level can be adjusted using the system's desktop remote. The GRAVITY CARBON RGB Subwoofer System is also unlike anything else out there with its cool carbon design. And coming in at just under €100 (RRP: €99.99), the GRAVITY CARBON RGB offers unbeatable value and is a smart choice for all these sound, light and design features.

### **Case modding with MYX**

Let there be light! And let it be colourful. If it's still just far too dark even with an RGB mouse, keyboard and speakers, MYX LEDs are perfect for

lighting things up. Speedlink now offers a wide range of stunning LED sets for computer cases, gaming desks, monitors – and anything else that needs illuminating. Each set is interconnectable, with practically nowhere off limits thanks to the accompanying main board adapter. And with over 220 lighting modes and millions of RGB colours to choose from, all the different components will look like one united setup once in place – and with MYX fans with their RGB lighting fitted, gamers can inject more coolness into the hot gaming action.

### **TAGOS XL Gaming Chair**

- Article number: SL-660004-BKRD
- Extra-large seat and backrest
- Integrated headrest
- Infinitely adjustable seat height
- Adjustable backrest recline, including horizontal position (90 to 180°)
- Full-range rocker mechanism with adjustable resistance
- 4D armrests
- Comfortable backrest and seat padding for hours of gaming fun
- 360° swivel design for the best view
- High-grade PU leather
- 5 × 60mm diameter dual-wheel castors
- Maximum bodyweight: approx. 150kg
- Armrest dimensions: 1 × 27 × 63-79cm (W × D × H), difference regardless of seat height: 7cm
- Seat dimensions: 58 × 55 × 49-56cm (W × D × H)
- Overall dimensions: 78 × 64-132 × 135-142cm (W × D × H)
- Packaging dimensions: 92 × 72 × 32cm (W × D × H)
- Weight: approx. 23.6kg

- Assembly tool included
- RRP: €399.99

### **HADOW Gaming Headset (PC)**

- Article number: SL-860010-BK
- Stereo PC gaming headset
- Immersive stereo sound
- Adjustable headband
- Soft earpads
- Flexible microphone arm
- Inline remote for volume adjustment and microphone muting
- Headphone specs: drivers: 40mm, frequency range: 20Hz – 20kHz, impedance: 32 $\Omega$ , noise level: 100dB  $\pm$  3dB, output power: 20mW
- Microphone specs: frequency response 100Hz – 10kHz, sensitivity: -45dB  $\pm$  3dB, impedance: 2.2k $\Omega$ , polar pattern: omnidirectional
- Connectivity: 2  $\times$  3.5mm jack plugs
- Cable length: 2.3m
- Dimensions: 205  $\times$  183  $\times$  90mm (W  $\times$  H  $\times$  D)
- Weight: 280g (incl. cable)
- RRP: €29.99

### **CELSOR Gaming Headset (PC)**

- Article number: SL-860011-BK

Press release

- Stereo PC gaming headset
- Immersive stereo sound
- Adjustable headband
- Flexible headband
- Soft earcup padding
- Flexible, flip-up multifunction microphone arm
- Inline remote for volume adjustment and microphone muting
- Sheathed cable
- Headphone specs: drivers: 50mm, frequency range: 20Hz – 10kHz, impedance: 16Ω, noise level: 105dB ± 3dB, output power: 10mW
- Microphone specs: frequency range: 100Hz – 10kHz, sensitivity: -55dB ± 3dB, impedance: 2.2kΩ, polar pattern: omnidirectional
- Connectivity: 2 × 3.5mm jack plugs
- Cable length: 2.3m
- Dimensions: 198 × 210 × 100mm (W × H × D)
- Weight: 310g (incl. cable)
- RRP: €39.99

### **DRAZE Gaming Headset (PC)**

- Article number: SL-860012-BK
- Stereo PC gaming headset
- Triple-colour LED lighting (red, green, blue; switchable using the inline remote)
- Immersive stereo sound
- Flexible headband
- Ultra-soft earcup and headband padding

### **MYX LED Extension Fan**

- Article number: SL-600609-MTCL
- Fan with RGB lighting for PC cases
- Addition for fans such as the Speedlink MYX LED Fan Kit
- Over 220 lighting modes
- All modes configurable by remote control (not included)
- Anti-vibration foam mounts
- Incl. 4 mounting screws
- Near silent fan operation of just 22.5dBA
- Fan speed: 1,200rpm
- Fan cable length: 500mm
- Dimensions: 120 × 120 × 26mm (W × D × H)
- Weight: 100g
- RRP: €14.99

### **MYX LED Dual Monitor Kit**

- Article number: SL-600608-MTCL
- 4 LED strips with RGB lighting for two monitors
- Combinable with other Speedlink MYX-series modding products (PC strips, fans)
- Over 220 different lighting modes
- All modes configurable by remote control
- Remote control compatible with all MYX products
- Practical Molex connector for connecting to the AC adapter
- Additional USB-A male connector for use outside the PC case
- Easy to attach thanks to flexible connecting cable

Press release  
– For immediate release –

- Additional motherboard adapter (Asus, Gigabyte, MSI, ASRock) and Corsair hub adapter
- Incl. 3m adhesive strip and button-cell battery for the remote control
- LED strip connector: 3-pin male and female
- Connecting cable connection: Molex female or USB-A male connector to 3-pin female
- LED strip length: 2 x 300mm, 2 x 450mm
- Connecting cable length: 400mm (Molex), 570mm (USB-A)
- Overall dimensions, short strips: 480 x 10 x 2.8mm (L x W x H)
- Overall dimensions, long strips: 630 x 10 x 2.8mm (L x W x H)
- Remote control dimensions: 87 x 40 x 7mm (L x W x H)
- Total weight of kit: 100g
- RRP: €49.99

## **MYX LED Monitor Kit**

- Article number: SL-600607-MTCL
- 3 LED strips with RGB lighting for one monitor
- Combinable with other Speedlink MYX-series modding products (PC strips, fans)
- Over 220 different lighting modes
- All modes configurable by remote control
- Remote control compatible with all MYX products
- Practical Molex connector for connecting to the AC adapter
- Additional USB-A male connector for use outside the PC case
- Easy to attach thanks to flexible connecting cable
