## **Must-have accessories for the Switch Lite: Speedlink presents matching kit for Nintendo's new mini console**

**Weertzen, 20 September 2019 – Gaming specialist Speedlink presents its range of matching equipment to accompany the launch of the Nintendo Switch® Lite. It includes cases for the console and games, screen protectors and a headset.**

Finally, the wait is over! Nintendo's new mobile console, the Switch® Lite, has arrived – and Speedlink has launched the perfect range of accessories to go with it. Among them, the rugged CADDY PRO Protection Case will protect the console against damage and scratches caused by carrying the console around. It can also store a power adapter and up to eight games with total ease. And for those who like to take along more than eight games at a time, the Multi Game Case is for them. It can hold 24 cartridges for immediate access to games wherever and whenever the urge to play strikes.

As it doesn't have a dock, the Switch® Lite is reliant on its own display. So to protect this all-important screen, Speedlink has launched two products. First up is the GLANCE PRO Tempered Glass Protector Set, which comprises two tempered glass screen protectors that fit in a flash with zero bubbles left behind. The glass is highly resistant to scratches and breakages, and can withstand even fairly rough handling of the mini console. The second is the GLANCE Screen Protector Set, which is perfect for the slightly more budget-conscious gamer. This set of three crystal-clear film screen protectors offers a scratch-free view of the on-screen action, and can also be fitted in a few seconds without bubbles appearing. Both sets include a cleaning cloth.

“It is very important to us to be able to offer our customers a wide range of accessories right from the moment a new product family launches. Our many practical accessories are ideal additions for the Switch® Lite and come at affordable prices – and some of them are available even before the mini console hits the shelves in electronics retailers,” explained Rainer Nawratil, Director of Product Management, PR & Marketing at Speedlink.

Following hot on the heels of the initial lineup, in just a few weeks Speedlink will offer a further accessory that will be a real treat for the ears this time: the CRIPSYS Gaming Headset. The CRIPSYS is incredibly comfortable thanks to its ultra-lightweight design – and with its fantastic build quality, it won’t pinch the head. It’ll be a real no-brainer to buy thanks to its awesome sound and crystal-clear chat.

### **CADDY PRO Protection Case**

- Article number: SL-320200-BK
- Padded case for the Nintendo Switch® Lite
- Robust, hardwearing shell
- Lightweight design
- Soft inner padding
- Console holder
