## **Speedlink's QUAD charges up Nintendo Switch users, offering them four times the fun**

**Weertzen, 24 June 2019: The QUAD multi-charger from electronics specialist Speedlink allows simultaneous charging of four Nintendo Switch® Joy-Cons® or two Joy-Cons® and one Pro Controller.**

With its new QUAD multi-charger, Speedlink promises even longer-lasting gaming fun on the Switch®. Users of Nintendo's compact console will no longer have to wait for their Joy-Cons® to fully recharge before picking up where they left off – they can just grab a second set or Pro Controller and keep on gaming with zero interruption. Alternatively, they can charge four Joy-Cons® simultaneously to enjoy maximum gaming fun with three friends. Status LEDs indicate when the Joy-Cons® are fully charged, so gamers know when to let loose again with the gaming action. And the price is also nice: the QUAD comes in at just under the €20 mark with an RRP of €19.99. This makes it the perfect addition to Speedlink's lineup for the Switch®, which also includes chargers and charging cables for the console itself.
