## **Work bug-free with Speedlink’s BRAICE wrist rests**

**Weertzen, 28 August 2019 – Following on from its wide range of antibacterial mice, Speedlink is now expanding its lineup to include BRAICE Antibacterial Wrist Rests for a hygienic workplace.**

Using a wrist rest in front of the keyboard is great for keeping the hands in an ergonomic position when typing. Doing so can prevent the wrists from being forced into an unnatural twisted position, saving the user from resulting pain.

Everything would be just fine were it not for the added issue of bugs. Objects that are in constant contact with the skin, such as mice, computer keyboards or – particularly in this case – wrist rests, are breeding grounds for bugs. On average, computer mice alone have hundreds of times more germs on them than toilet seats (source: University of Arizona). But while germs can easily be wiped away from the plastic surfaces of computer mice and keyboards using a damp cloth, it’s not an option for textile-covered foam wrist rests as they would just sit there for hours on end like a damp sponge.

Speedlink now has the solution in the form of its antibacterial BRAICE wrist rests. Their foam padding gently cushions the wrists when using the keyboard or – with the smaller BRAICE model – the mouse, while their antibacterial coating ensures the workplace remains hygienic. The coating is so effective that in some cases it cuts bacterial growth rates by up to 99.9%.

“Our developers are always thinking about the many different requirements placed on office products, which are often in use throughout the working day. This has already resulted in us launching a

wide range of ergonomic and antibacterial products such as our PIAVO and AXON mice. BRAICE now builds on these achievements and combines two benefits in one product: improved ergonomic comfort and bacteria-busting hygiene at the workplace. And with a starting price of just €8.99, they won't blow the office or household budget," said Peter Heller, Product Manager at Speedlink, summing things up.

### **BRAICE Antibacterial Wrist Rest – Large**

- Article number: SL-620804-BK
- Antibacterial coating
- Non-skid backing
- Soft foam padding
- Healthy cushioning and pressure relief
- Cools the wrists by dissipating heat
- Dimensions: 455 x 75 x 23mm (W x D x H)
- Weight: 79g
- RRP: €12.99

### **BRAICE Antibacterial Wrist Rest – Small**

- Article number: SL-620803-BK
- Antibacterial coating
- Non-skid backing
- Soft foam padding
- Healthy cushioning and pressure relief
- Cools the wrists by dissipating heat
- Dimensions: 165 x 75 x 21mm (W x D x H)
- Weight: 26g
