Light it up – Speedlink’s MYX series delivers a breathtaking LED light show for case modders and other enthusiasts

Weertzen, 28 October 2019 – With its MYX-series LED products, Speedlink is enabling users to customise their kit to match their gaming world. The range includes combinable LED strips and illuminated PC fans boasting over 220 lighting modes and 16.7 million RGB colours.

Whether it’s tranquil blue, full-on red alert or an explosion of colour in action mode, total immersion in a gaming world demands the right lighting mood. And because this depends not only on the game, but also on personal preferences, Speedlink’s MYX-series LED products offer over 220 individual lighting modes and millions upon millions of colours from the RGB spectrum.

There are practically no limits to where the assorted LED strips can be used. They can be connected to a USB port or an AC adapter – or even to the PC’s PSU or directly to the motherboard. And thanks to the accompanying adapter cable, they can also be connected to Asus, Gigabyte, MSI or ASRock boards and lighting systems as well as Corsair hubs. And with the universal remote, the various elements can be configured and controlled in complete synchronisation. What’s really unique is that unlike most LED products on the market, MYX LED strips use smart digital LEDs that allow every single LED within the strip to light up in its own individual colour.

Case modders will also be blown away by the MYX fans and their RGB lighting, which will breathe even more fresh air into the gaming action thanks to their 120mm format for compatibility with the majority of PC cases and radiators. The MYX remote offers control not only of the fan

speed, but also the lighting – and in full synchronisation with the LED strips for a uniform lighting experience that’s completely immersive.

“We developed our MYX series to complement our RGB mice, keyboards and speakers. Thanks to MYX, the blast of colour can be transferred consistently to cases, fans and monitors. And in typical Speedlink fashion, we’re making sure that everything is centred around the customer: all MYX products can be combined with each other and controlled uniformly as if they were a unified whole,” explained Peter Heller, Product Manager at Speedlink.

MYX LED Fan Kit and MYX LED Extension Fan

The MYX LED Fan Kit includes two illuminated fans plus a remote that can also control MYX LED strips. The fans are virtually silent, generating a noise level of just 22.5dBA thanks to the anti-vibration foam mounts on the corners.

The MYX LED Extension Fan is a great addition to the MYX LED Fan Kit and for anyone who wants to boost their ventilation system’s cooling capabilities with an affordable illuminated fan.

MYX LED Fan Kit

- Article number: SL-600606-MTCL
- 2 × 120mm fans with RGB lighting for PC cases
- Combinable with other Speedlink MYX-series modding products (monitor strips, PC strips)
- Over 220 different lighting modes
- All modes configurable by remote control
- Remote control compatible with all MYX products

Press Release

– For immediate release –

- Hub with Molex connector for connecting to the PSU
- 6-pin sockets on hub for up to 10 fans
- Anti-vibration foam mounts
- Incl. 8 mounting screws and button-cell battery for the remote control
- Near-silent fan operation of just 22.5dBA
- Fan speed: 1,200rpm
- Airflow rate: 110m³/h
- Fan connector: 6-pin plug
- Hub connection: Molex female to 10 x 6-pin females
- Fan cable length: 500mm
- Hub cable length: 295mm
- Fan dimensions: 120 x 120 x 26mm (W x D x H)
- Hub dimensions: 93 x 48 x 16mm (W x D x H)
- Remote control dimensions: 87 x 40 x 7mm (L x W x H)
- Total weight of kit: 266g
- RRP: €39.99

MYX LED Extension Fan

- Article number: SL-600609-MTCL
- Fan with RGB lighting for PC cases
- Addition for fans such as the Speedlink MYX LED Fan Kit
- Over 220 lighting modes
- All modes configurable by remote control (not included)
- Anti-vibration foam mounts
- Incl. 4 mounting screws
- Near-silent fan operation of just 22.5dBA
- Fan speed: 1,200rpm

Press Release

– For immediate release –

- Airflow rate: 110m³/h
- Connectivity: 6-pin plug (connects via MYX hub)
- Cable length: 500mm
- Dimensions: 120 × 120 × 26mm (W × D × H)
- Weight: 100g

MYX LED Monitor Kit and MYX LED Dual Monitor Kit

The Monitor Kits comprise multiple LED strips, with all modes configurable via the remote. They also come with flexible connector cables for easy attachment and positioning. While the MYX LED Monitor Kit comes with three separate strips, the Dual Monitor Kit includes four – perfect for a side-by-side dual monitor config. It's also a breeze to connect them to the majority of leading motherboards thanks to the wide range of included adapters. Once connected this way, the strips can be controlled using the manufacturer's software.

MYX LED Monitor Kit

- Article number: SL-600607-MTCL
- 3 LED strips with RGB lighting for one monitor
- Combinable with other Speedlink MYX-series modding products (PC strips, fans)
- Over 220 different lighting modes
- All modes configurable by remote control
- Remote control compatible with all MYX products
- Practical Molex connector for connecting to the PSU
- Additional USB-A male connector for use outside the PC case
- Easy to attach thanks to flexible connecting cable

Press Release

– For immediate release –

- Additional motherboard adapter (Asus®, Gigabyte®, MSI®, ASRock®) and Corsair® hub adapter
- Incl. 3m adhesive strip and button-cell battery for the remote control
- LED strip connector: 3-pin male and female
- Connecting cable connection: Molex female or USB-A male connector to 3-pin female
- LED strip length: 2 × 300mm, 1 × 450mm
- Connecting cable length: 400mm (Molex), 570mm (USB-A)
- Overall dimensions, short strips: 480 × 10 × 2.8mm (L × W × H)
- Overall dimensions, long strip: 630 × 10 × 2.8mm (L × W × H)
- Remote control dimensions: 87 × 40 × 7mm (L × W × H)
- Total weight of kit: 82g
- RRP: €39.99

MYX LED Dual Monitor Kit

- Article number: SL-600608-MTCL
- 4 LED strips with RGB lighting for two monitors
- Combinable with other Speedlink MYX-series modding products (PC strips, fans)
- Over 220 different lighting modes
- All modes configurable by remote control
- Remote control compatible with all MYX products
- Practical Molex connector for connecting to the PSU
- Additional USB-A male connector for use outside the PC case
- Easy to attach thanks to flexible connecting cable

Press Release

– For immediate release –

- Additional motherboard adapter (Asus, Gigabyte, MSI, ASRock) and Corsair hub adapter
- Incl. 3m adhesive strip and button-cell battery for the remote control
- LED strip connector: 3-pin male and female
- Connecting cable connection: Molex female or USB-A male connector to 3-pin female
- LED strip length: 2 x 300mm, 2 x 450mm
- Connecting cable length: 400mm (Molex), 570mm (USB-A)
- Overall dimensions, short strips: 480 x 10 x 2.8mm (L x W x H)
- Overall dimensions, long strips: 630 x 10 x 2.8mm (L x W x H)
- Remote control dimensions: 87 x 40 x 7mm (L x W x H)
- Total weight of kit: 100g
- RRP: €49.99

MYX LED PC Kit

The MYX LED PC Kit's long LED strip boosts the case's lighting level.

- Article number: SL-600605-MTCL
- LED strip with RGB lighting for PC cases
- Combinable with other Speedlink MYX-series modding products (monitor strips, fans)
- Over 220 different lighting modes
- All modes configurable by remote control
- Remote control compatible with all MYX products
- Practical Molex connector for connecting to the PSU
- Additional USB-A male connector for use outside the PC case
- Additional motherboard adapter (Asus, Gigabyte, MSI, ASRock) and Corsair hub adapter

Press Release
