Now there's a treat for the ears and a feast for the eyes: Speedlink's GRAVITY CARBON RGB brings an explosion of colour to the booming bass

Weertzen, 30 July 2019: With the GRAVITY CARBON RGB the innovative gaming specialist Speedlink is bringing to market an active 2.1 sound system for notebooks and desktops that combines stunning sound with spectacular RGB illumination at an extremely affordable price.

Hear. Feel. And see: When the GRAVITY CARBON RGB system sends the sound of explosions and gunshots ripping through the room, it also makes it look like the gaming room's quaking to its core – all thanks to the system's spectacular RGB illumination. 16.7 million colours accompany the tornado of sound with an explosion of colour emanating from both the powerful wooden-cabinet subwoofer and each satellite, vanquishing the darkness in an immersive experience. With six lighting modes to choose from, music and gaming sounds are accentuated with awesome results. And it isn't just the light effects and sound that will blow away anyone within earshot or eyesight – with its carbon design the GRAVITY itself also stands out from the usual run-of-the-mill sound systems.

"A superb design meets advanced technology in a system that's truly entertaining. With the GRAVITY CARBON RGB we've added spectacular visual components to the fantastic sound of our best seller, the GRAVITY CARBON, and in doing so we're setting the trend once again," said a delighted Peter Heller, Product Manager at Speedlink. The GRAVITY CARBON RGB package also includes a desktop remote for convenient volume adjustment. And when it comes to selecting the

different lighting modes, all it takes is a press of a single button on the subwoofer. The GRAVITY CARBON RGB is also a breeze to hook up to any audio source, including a laptop, tablet or smartphone, either via a 3.5mm headphone socket or using Bluetooth®.

And coming in at just under €100 (RRP: €99.99), the GRAVITY CARBON RGB offers unbeatable value and is a smart choice for all these sound, light and design features.
